Serious animal and human bites can get infected if they're not checked and treated quickly. Always seek medical advice if you have been bitten by an animal or person and the bite has broken the skin. People and animals have a lot of bacteria in their mouths, which can cause an infection if a bite breaks the skin.

Most spider bites are harmless. Occasionally, spider bites can cause allergic reactions. And bites by the venomous black widow and brown recluse spiders can be very dangerous to people. If you are bitten by a spider, you may see a reaction similar to that of a bee sting, including redness, pain and swelling at the site. To treat a spider bite: National Rabies Control Programme
