"Blackjack Bluebook II" has things that I have never seen in any other blackjack book. Did you know that you can get an advantage in a six-deck game by counting the number of ten cards? After two decks have been dealt, you may have an advantage--and you will not have to count anything for the rest of the shoe! Did you know that if there is a ...

In BJBB II Renzey's use of a TC per 2D par for the MENTOR was excellent. I have recommended many times that new players aspiring to a level-2 count consider using a 2DTC. Think about it - initially the newer true edge 1/4D TC ZEN seemed like a good idea, but it didn't hold up. If you mostly play 2D like me a 2D TC is the easiest to calc accurately and using only multipliers.
