Theorizing black experience in the United States is a difficult task. Socialized within white supremacist educational systems and by a racist mass media, many black people are convinced that our lives are not complex, and are therefore unworthy of sophisticated critical analysis and reflection. Even those of us righteously committed to black ...

The Black-Scholes model is an elegant model but it does not perform very well in practice. For example, it is well known that stock prices jump on occasions and do not always move in the continuous manner predicted by the GBM motion model. Stock prices also tend to have fatter tails than those predicted by GBM.
