Blade is the simple, yet powerful templating engine provided with Laravel. Unlike other popular PHP templating engines, Blade does not restrict you from using plain PHP code in your views. In fact, all Blade views are compiled into plain PHP code and cached until they are modified, meaning Blade adds essentially zero overhead to your application.

7 Test conducted at Synthes Mechanical Testing Lab, West Chester, PA. The 11.0 mm helical blade reduces amount of bone removed6 By using the 11.0 mm helical blade, significantly less bone is removed than with a predrilled lag screw. The helical blade compacts trabecular bone around the blade as it advances into the femoral head.
