### **Just How Blind Are Blind Trusts, Anyway? : Planet Money : NPR**

blind trust with open eyes kindle edition

A blind trust is a trust in which the trust beneficiaries have no knowledge of the holdings of the trust, and no right to intervene in their handling. In a blind trust, the trustees (fiduciaries, or those who have been given power of attorney) have full discretion over the assets.

It has been proven that we blindly trust experts and authority figures. The more "letters" next to your name on a business card, the better. In the early 70s the Milgram experiment was published and showed the extreme affect that authority figures can have on our ability to resist instructions that we may not agree with.<sup>1</sup>

At the state level, some governments require that blind trusts created by politicians must be irrevocable. An irrevocable trust is one that cannot be undone. You might be running for office and foresee a problem with some of your investments, and transfer them into a blind trust to keep them out of the public eye during your campaign.

The Trust Walk is a popular teambuilding activity that helps people practice trusting each other. A leader guides his or her blindfolded partner around obstacles using verbal or nonverbal instructions. This activity is an active teambuilding activity that requires a great deal of space. An outdoor setting with some obstacles (but nothing too dangerous!) is ideal.
