blueprints pediatrics blueprints series

A paediatric investigation plan (PIP) is a development plan aimed at ensuring that the necessary data are obtained through studies in children, to support the authorisation of a medicine for children. All applications for marketing authorisation for new medicines have to include the results of studies as described in an agreed PIP, unless the medicine is exempt because of a deferral or waiver.

The Blueprints for Healthy Youth Development mission is to promote interventions that work. We do this by providing a comprehensive, trusted registry of evidence-based interventions (programs, practices and policies) that are effective in reducing antisocial behavior and promoting a healthy course of youth development and adult maturity.

(PreTest Pediatrics). The BluePrints Series: The BluePrints series has a beautiful format that is very easy to read. The text is laid out in a bulleted lists, but with more details and descriptions than the First Aid series with which most students are familiar. I think very highly of these review books. (Blueprints Pediatrics).
